Proposal title **Cross-border section of the new Turin-Lyon line**

Note that for technical reasons, the following characters are not accepted in the Proposal Title and will be removed: < > " &

Duration in months

Free keywords **Mediterranean Corridor, core network, base tunnel, France, Italy, rail transport, cross border section**

### Abstract \*

This project is at the heart of the European dream for the construction of a TEN-T Network, and it consists in the realization of the works for the cross-border section of the new Turin-Lyon line and of the Mont Cenis base tunnel. The new rail line constitutes a major element of the local, national and European transportation system, ensuring significant improvements in the transit times and modal shift in favour of passenger and cargo rail services, improving accessibility and limiting the congestion and all the environmental externalities of the valleys produced by road traffic. The Turin-Lyon is an essential part of the Mediterranean Corridor, being one of the 9 railway axes that belongs to the European TEN-T network.

The base tunnel, that is the main component of the cross-border section, is currently at an advanced state of construction with cofinancing from Italy, France, and Europe. In particular, the European Commission is funding the realization of the cross-border tunnel through the CEF funding programmes (on-going Action "2014-EU-TM-0401-M-Cross Border Section of the New Turin-Lyon Rail Link Mont Cenis base tunnel"). The present project represents the follow-up of this initiative for the European programming period 2021-2027. The project is located between Saint-Jean-de-Maurienne and Susa/Bussoleno of the French-Italian common part as defined by the International Treaty of 2012. It includes the connection to the existing line in Saint-Jean-de-Maurienne railway station, the Mont-Cenis cross-border base tunnel (around 57.5 km), the Susa valley crossing, the interconnecting tunnel between Susa and Bussoleno (approx. 2 km) and the entry into the existing Bussoleno railway station.

The project promoter of this Application is TELT Tunnel Euralpin Lyon Turin, which is the public binational promoter responsible for the realization and operation of the cross-border section of the mixed Turin-Lyon freight/passenger railway line.

## Declarations

Field(s) marked \* are mandatory to fill.

- 1) We declare to have the explicit consent of all applicants on their participation and on the content of this proposal. \*
- 2) We confirm that the information contained in this proposal is correct and complete and that none of the project activities have started before the proposal was submitted (unless explicitly authorised in the call conditions).
- 3) We declare:
- to be fully compliant with the eligibility criteria set out in the call
  - not to be subject to any exclusion grounds under the [EU Financial Regulation 2018/1046](#)
  - to have the financial and operational capacity to carry out the proposed project.
- 4) We acknowledge that all communication will be made through the Funding & Tenders Portal electronic exchange system and that access and use of this system is subject to the [Funding & Tenders Portal Terms and Conditions](#).
- 5) We have read, understood and accepted the [Funding & Tenders Portal Terms & Conditions](#) and [Privacy Statement](#) that set out the conditions of use of the Portal and the scope, purposes, retention periods, etc. for the processing of personal data of all data subjects whose data we communicate for the purpose of the application, evaluation, award and subsequent management of our grant, prizes and contracts (including financial transactions and audits).

The coordinator is only responsible for the information relating to their own organisation. Each applicant remains responsible for the information declared for their organisation. If the proposal is retained for EU funding, they will all be required to sign a declaration of honour.

**False statements** or incorrect information may lead to administrative sanctions under the EU Financial Regulation.
